RENEWED PETITION UNDER 37 CFR 1.182

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the December 19, 2007 Decision on Applicants' "Response to Notification of Defective Response," Applicants submit this Renewed Petition to request the USPTO change the name of inventor Anders Thomas Wilson Eriksson to Anders Thomas Wilson Norin in the above-identified pending US Patent Application.

In response to a Notification of Missing Requirements Under 35 USC 371, on May 30, 2007 Applicants submitted a declaration with signatures of all inventors. As a result of a name change, the signature of one inventor, Anders Thomas Wilson Eriksson, appeared as Anders Thomas Wilson Norin.

Applicants received a Notification of Defective Response indicating the declaration submitted May 30, 2007, was not in compliance with 37 CFR 1.497(a) and (b) in that it is not executed in accordance with either 37 CFR 1.66 or 37 CFR 1.68 and the USPTO did not receive an IB Form 306 confirming the inventor's name change.

Applicants submitted a Response to the Notification of Defective Response on October 16, 2007. Pursuant to conversations with the PCT Legal Office and Examiner Winston M. Alvarado, that Response included an application data sheet under 37 CFR 1.76 as well as a copy of Extract of the Population Register showing the inventor's previous name as well as his new name.

Despite the USPTO's own instructions to Applicants, per the Decision mailed December 19, 2007, Applicants' Response of October 16th was not accepted and the inventor's name was not changed. Accordingly, Applicants now submit the instant Renewed

Petition to request the USPTO change the name Anders Thomas Wilson Eriksson to Anders Thomas Wilson Norin.

In addition to this Renewed Petition, and per the requirements of MPEP §§605.04(c) and 1893.01(e), Applicants submit herewith an application data sheet under 37 CFR §1.76 and a statement signed by the inventor, which sets forth both names and the procedure whereby the change of name was effected.

In view of this submission and the accompanying documents, Applicants submit the declaration provided to the USPTO on May 30, 2007 is in compliance with the requirements of 35 USC §371 and 37 CFR §1.497 (a) and (b). Accordingly, Applicants request the inventor's name be changed in the instant application and that the declaration provided on May 30, 2007 be accepted by the USPTO.

Fees

Pursuant to the Decision, the requisite petition fee has already been charged to Deposit Account No. 23-1665. However, the Commissioner is authorized to charge any additional fees to Deposit Account 23-1665.

Respectfully submitted,

Ana Maria Garcia Collazo, et al.

INVENTOR'S STATEMENT REGARDING CHANGE OF NAME
UNDER MPEP §605.04(c)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

1. International PCT Application No. PCT/EP2005/003033 ("PCT Application") was filed on March 22, 2005, listing me as a co-inventor. My official name at the time the PCT Application was filed was **Anders Thomas Wilson Eriksson**, though I generally used the name Thomas Anders Wilson Ericsson and thus that latter name was given on all official forms relating to the

application. The PCT Application was filed as a U.S. National Phase Application on September 21, 2006 and assigned U.S. Serial No. 10/593,928.

2. I was married on 9 September 2006 and subsequently changed my surname to my wife's surname, so that my name became **Anders Thomas Wilson Norin**.

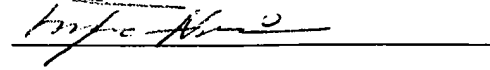

3. I changed my name in accordance with the Swedish name law (1982:670), which required me to send the Swedish Tax Agency form SKV 7831 (notification of surname changes at marriage) together with the consideration of impediments to marriage application. Upon completion of the requirements of the Swedish tax law, I was issued an Extract of the Population Register, which indicates my previous name and my married name. A copy of the Extract is enclosed for your records and review.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of this patent application or any patent issuing thereon.

Respectfully submitted,

Anders Thomas Wilson Norin
